DETAILED ACTION

Response to Communication(s)

1. This Office action is in response to the Appeal Brief filed on March 15th, 2007; and to the BPAI Decision sent on April 16th, 2009, the previous final Office action has been withdrawn. Claims 1-10 are now pending in the application.

Allowable Subject Matter

2. Claims 1-10 are allowed. The following is a statement of reasons for the indication of allowable subject matter:

Many references in the art disclose the transmission of a frame-structure synchronous multiplex signal composed of frames having a payload section and an overhead section over a synchronous digital transport network, such as that found in Wakim et al [U.S. 6,477,178]. But no prior art reference discloses the method (see claim 1), wherein an overhead section is deconstructed at network interfaces, a frame to be transmitted includes an unchanged overhead section which is packed as part of the payload in a concatenation of newly formed multiplex units.

Claims 9-10 are allowed as indicated in previous office action sent on 07/19/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
